## AOC8000 SILICONE OIL LUBRICANT

### Product Description

A cost effective silicone oil that is suitable for all types of vehicles including trucks where the engine has been fitted with a viscous fan clutch, also this product is highly used in the fitness industry.

### Product Benefits

- ◆ Designed to provide an economical way of servicing viscous fan clutches.
- ◆ Suitable for use on all types of engines where a viscous fan clutch has been fitted.
- ◆ Assists in maintaining original design heat transfer between the incoming water temperature into the radiator and the heat rejection from the radiator core and hence maintains optimum engine performance.
- ◆ Rather than always replacing the fan clutch it simply can be disassembled, repacked with silicone oil and then reassembled therefore making the fan clutch a serviceable part and helps to reduce parts wastage.
- ◆ Used widely in the Fitness Industry as an economical way of lubricating the Gymnasium equipment.
- ◆ Silicone Oil will not fly off treadmill equipment and is also dust free, therefore not causing the problem that normal machine oil has.

### Principal Uses

**AOC8000** is specialized silicone oil which has been developed for use in all types of viscous fan clutches and Gymnasium Equipment.

### Dosage

The recommended dosage of a small viscous fan clutch is 18mm, 36mm for medium car size, 50mm for large car size and for truck size simply phone AOC and ask for the quantity for the particular engine. Regarding the Fitness Industry the product is simply applied by using a syringe by drawing the product from a larger container & therefore applying it directly onto the serviceable area.

### Handling

Refer to the Material Safety Data Sheet for additional information

### Freight

Silicone Oil is treated as Non-Hazardous & Non-Dangerous.
